Professional Summary

Computer Engineering student with experience in DevOps, backend, and full-stack development. Skilled in Jenkins, CI/CD, Spring Boot, FastAPI, Docker, and REST APIs. Experienced in deployment automation, scalable backend services, and reducing manual operational effort through workflow optimization.

Experience

DevOps Engineer Intern — PTC

2025 – Present

- Developed and optimized Jenkins pipelines using Groovy for build and deployment workflows.
- Automated code review and validation processes, reducing manual effort by 4%.
- Enhanced CI/CD monitoring and debugging workflows to improve deployment stability.
- Worked with Linux environments and DevOps automation tools for workflow optimization.

Jenkins, Groovy, Linux, CI/CD, Git

Web Developer Intern — Yugazephyr

2023 – 2024

- Developed full-stack features using ReactJS and Spring Boot.
- Built and integrated REST APIs for frontend-backend communication.
- Worked in Agile teams with Docker, Git, and MySQL.

ReactJS, Spring Boot, MySQL, Docker, Postman

Technical Skills

Languages: Java, Python, JavaScript

Frontend: ReactJS, TailwindCSS, HTML, CSS

Backend: Spring Boot, FastAPI, REST APIs, Hibernate

Databases: MySQL, MongoDB, Oracle

DevOps & Tools: Jenkins, Docker, GitHub Actions, Ansible, Linux, CI/CD, Kubernetes, Jira

Concepts: Microservices, Deployment Automation, Authentication

Projects

NOVA – Multi-Agent AI Assistant Platform

- Built multi-agent AI platform with shared memory and secure APIs.
- Implemented persistent memory using MCP architecture.
- Designed backend services using FastAPI and MongoDB.

Python, FastAPI, MongoDB, Docker

Student Management System

- Developed secure REST APIs with role-based authentication.
- Integrated ReactJS frontend with Spring Boot backend.

Spring Boot, Spring Security, MySQL, ReactJS

International Conference Website

- Built full-stack event platform with admin dashboard and registration system.
- Deployed frontend using GitHub Pages.

ReactJS, Node.js, Express.js, MongoDB

Education

B.Tech – Computer Engineering

2023 – 2026

JSPM's RSCOE, Tathawade

87.4%

Diploma – Computer Engineering

2020 – 2023

Government Polytechnic, Ahilyanagar

90.80%

Schooling – Carmel Convent High School

2010 – 2020

Ahilyanagar

93.58%

Certifications

- OCI DevOps Professional
- Scaler – Spring Boot
- IIT Bombay – Java
- NPTEL – Cloud Computing
- TCS – Young Professional
- IIT Bombay – Python
- IIT Bombay – RDBMS

Leadership & Achievements

- CTO & Treasurer – Coding Club
- Conducted Java Programming Workshops
- Top Performer – SBI CYI Hackathon (Top 1000)
- SIH Shortlisted (2×)
